The Cole Nursery Co.

PAINESVILLE, OHIO

Introducers of Patented
Truehedge Columnberry
and
Fuchsia riccartoni "Scarlet Beauty"

See Inside Covers

Hedges made from Columnberry growing in the nursery row. The first and only trimming, consuming one hours time, made these finished hedges.

COLE'S New Truehedge Columnberry

BERBERIS THUNBERGI ERECTA (PLANT PAT. No. 110)

A GLORIOUS NEW SHRUB

Cole's 1940 Introduction. Not Patented.

Cole's Glorious. *Glorious Mockorange*—8'

(*Virginale* X *Rosace*). A Cole origination of great merit. Mammoth flowers of snowy white; large glossy rich green foliage of leathery texture densely set on the shrub. Strong upright neat growing compact shrub, profuse in bloom. A most prominent hybridist and horticulturist who has personally done a great deal of work on Mockorange proclaims Cole's Glorious to be the finest of all.

Customers are usually pleasantly surprised to find that their plants are much larger and stronger than they expected.

We reserve the privilege of making an additional charge for trees of special grade or quality personally selected by purchaser.

During these lean years one has been apt to neglect many important duties. Root-pruning of Evergreens is most necessary yet not immediately apparent if neglected.

Cole has a regular schedule for Root-pruning — In fact, the majority of our Evergreens are Root-pruned at least every two years

We have sheared practically all of our evergreens where it is necessary to keep them in dense, symmetrical, salable condition.

COLE'S EVERGREENS are dense and shapely, they are root pruned, and they are properly spaced to give light and air on all sides. We will be happy to have you visit us and inspect our plants.

We make a ball of sufficient size for successful transplanting

ROSES

We add a number of thoroughly tested roses to our collection each year and eliminate a few of the least worth-while.

We endeavor to always have a very high class collection to meet all needs. (See Pages 59 to 63).

Queensland Beauty. Coppery pink-----	.40	.35	.30

NORTHERN GROWN ROSES

Our trade recognizes the uniform quality, hardiness, and "trueness to name" of Cole's Painesville Grown roses. We have guarded this reputation zealously and have gone to no end of labor to see that we had an ample crop for our regular customers in the face, many times, of adverse economic, trade, and weather conditions.

We hope you will bear in mind the conditions herein mentioned when selecting your source of supply.

Saladin. Oriental red shading to coral red—2½'	-----		
Yellow Normandie. Cream-yellow. Early—18"	-----		

NEW AND KOREAN CHRYSANTHEMUMS

Without question the greatest new creation in the perennial world. Korean Chrysanthemums are perfectly hardy—a requisite for satisfaction lacking in the old types; they are easier to grow and are more profuse in blooming. The lovely pastel shades defy description. Wonderful for table decorations and compelling for color effect in the garden.

5 Each 25 Each

ACACIA. New. Semi-double, brilliant sulphur-yellow.		
September—2' -----	\$.22	\$.17
AGNES SELKIRK CLARK. Mammoth single shading from bronzy pink to salmon—2'-----	.12½	.10

RESPONSIBILITY

We endeavor to send our patrons the grade and quality of stock ordered. We do not guarantee our products or assume any responsibility after they leave our nursery, as conditions always exist over which we have no control. It is understood, in case of error on our part, that we shall not be responsible for a greater amount than the price paid.

TERMS

5% OFF FOR CASH before shipment on purchases at prices listed herein. Be certain to add enough extra to cover packing. This will eliminate C. O. D. costs. Over-payments will be returned promptly.

To parties having satisfactory credit arrangements or account with us 2% 10 days, 30 days net.

No claims for rejections or deficiencies will be entertained unless made within 10 days after arrival of goods.

5 to 25 of one variety and size will be furnished at the 10 rate, 25 to 250 at 100 rate; 250 or more at 1000 rate.

PLANT PATENT NOTICE — PROPAGATION RIGHTS RESERVED

The Tru hedge Columberry is protected by Plant Patent No. 110 under the U. S. Patent Laws. Asexual reproduction or disposition by sale, gift or otherwise, of scions, buds, or cuttings for such reproduction is prohibited unless license is previously obtained from the patent owners. Unauthorized reproductions, sale, or distribution of propagation material of this plant will subject the one engaging in the same to prosecution for infringement. For resale at Retail Only except under license from the patent owners.

The above conditions also apply to all other patented plants which we sell.

THE COLE NURSERY COMPANY

PAINESVILLE, OHIO

TRUEHEDGE GUARANTEE

Cole guarantees that Truehedge Columberry plants sold by Cole at prices listed herein will create a formal hedge of height desired **at less cost and more quickly** than plants of Japanese Barberry twice as large under same conditions (See note below).

To cover this guarantee we will supply sufficient plants (Absolutely Free) for a hedge of the same length, your selection from Japanese Barberry or 3 kinds of Privet.

THE COLE NURSERY COMPANY, PAINESVILLE, OHIO

Note.—A fair comparison using transplanted stock would be—

Truehedge 9 to 12" size with Japanese Barberry 18 to 24"

Truehedge 12 to 15" size with Japanese Barberry 24 to 30"

Labor to be figured at ordinary rates.

BALLING SCHEDULE

In this catalogue where ball sizes are shown, viz., (15" Ball) etc., this is the approximate size supplied. If larger or smaller balls are required charge will be adjusted to conform to following schedule.

Where balling is shown as "Extra" or where balls are required on shrubs, trees and plants not catalogued "Balled (B&B)" add to listed price according to the following schedule.

Ball Size	Weight Pounds	Shrub or Flowering Tree	1 Each	2 Each	5 Each	25 Each

New Hardy Everblooming Cole's *Fuchsia riccartoni* "Scarlet Beauty"

Plant Patent No. 440

Words cannot do justice to this plant, nor can printer's ink depict its countless flaming scarlet blooms. Picture to yourself an upright plant having from twenty to thirty stems which at maturity attain a height of 3 feet, and which, from the middle of June until severe frosts, will bear upward of five thousand flowers 1½ inches long, of rose-red, with corolla of mulberry purple and you will visualize that which is the great, nationwide "Plant Sensation."

Fuchsia "Scarlet Beauty" can be used effectively in the front of shrub plantings or to face down large screens.

Its foliage is far superior to most plants in the hardy border, retaining its glossy, holly-green appearance from Spring until after frosts. In northern Ohio, it withstands frosts until November 15th on the average.

Fuchsia riccartoni, "Scarlet Beauty" is a herbaceous plant which freezes to the ground each Winter after the manner of Butterfly Bush. In the Spring and early Summer it quickly comes up from eyes which form below the surface of the ground, established plants gaining a height of 2 feet or more by late June.

*Most desirable in the Hardy Plant
Border because it gives a wealth and
Period of Bloom impossible to obtain
with any other Hardy Plant.*

FUCHSIA RICCARTONI "Scarlet Beauty"
